NUMBER 27

OLD-FASHIONED "POPS" CONCERT SUNDAY EVENT

Ever wonder what to do on a lazy Sunday afternoon? Here is a suggestion—how about sitting under a shady tree, on the green lawn, with a date and a cool drink (soft), while listening to a good band play familiar tunes?

The EWC concert band, the "friend to all" in music matters, will present an old-fashioned type concert on the lawn of Showalter this Sunday afternoon at 3. Included in the program will be popular musical numbers by Morton Gould, Leroy Anderson, and John Phillip Sousa. Several show tunes will also be played with special emphasis on selections from the Leonard Bernstein score of *The West Side Story*.

The concert will be presented in conjunction with the Mother's day activities, so bring your mother too. Admission is free of course, but please don't molest the squirrels.

NEW HALL ASSISTANTS

A group of girls waited eagerly to see if they had been chosen as hall assistants for the girls' dorms—but they weren't the only ones waiting.

The picking of hall assistants is important not only to the girls involved but to those living in the halls who will profit or suffer by the choice. Carol Gerkin, Dean of Women, announced the names of the new assistant directors who will serve the women of Louise Anderson, Monroe and Senior halls during the 1961 to 1962 school year.

Named were, for Louise Anderson hall, Kathy Beckman, Priscilla Bigge and Kay Lopp; Monroe, Mary Buntrock, Jeanell Halverson and Marie Houston, and Senior, Ina Jean Light, Marelou Marson and Kathie Morris.

To a girl living in the dorm these names are meaningless without knowing what these girls were picked for.

While naming the girls to their posts, Mrs. Gerkin said this about the duties of hall assistants: "Specific duties of the hall assistant are many and varied as they strive to assist the hall directors with the total residence hall program so that it will run smoothly and happily."

But what are the qualities these girls must have to carry out the duties they have been assigned? Dorm residents, take note, for your hall assistants are selected on the basis of personality, leadership appearance, dependability, ability to recognize problems and approach them realistically, and a genuine interest in people. Scholarship and financial need also were considered.

The reference to people means you who live in the dorms. The hall assistants were chosen by committees composed of the hall directors, present hall assistants and the dean of women to serve as counselors, disciplinarians and friends for the lower classmen who need them.

Among the eagerly waiting girls, some were happy and some were not. The girls who will be affected by the choices will have to wait a bit longer, but chances are they will be happy with choices.

Ray Raschko, a senior from Walla Walla, was chosen as "Man of the Year" by the Associated Men Students.

Himalayan Explorer Will Speak At Con

World-famous Himalayan explorer and mountain climber Norman Dyhrenfurth will speak at the May 18 convocation at Showalter auditorium.

The only American member of the 1952 Swiss assault on Mount Everest, Dyhrenfurth will speak and show films on his experiences.

Dyhrenfurth led his own International Himalayan Expedition in 1955 and was deputy leader and cameraman on the 1958 Slick-Johnson "Abominable Snowman" Expedition.

He was a counter intelligence officer in World War II and also produced training films for the Armed Services.

In 1963, Dyhrenfurth plans to head an all-American Expedition to Mount Everest in an all out assault on not only Everest but Lhotse and Nuptse as well. These two peaks are also in the Himalayan range.

FACULTY ELECTS

EWC's Faculty Organization has recently elected officers for the coming year.

Dr. Earle K. Stewart, outgoing president of the organization, told the Easterner that Orland B. Killin, assistant professor of industrial arts, is the newly elected president.

Jean Taylor, associate professor of English and language was elected secretary. Dr. Glenn Kirchner, assistant professor of physical education, is treasurer.

Members-at-large to the EWCE Faculty Council who were elected are Dr. Joseph Chaburn, assistant professor of education; C. W. Booth, instructor in geography; and Dr. Kenneth Halwas, assistant professor of English and literature.

Dr. Frank Nicol, chairman of the department of biology, is chairman of the Faculty Council.

Dames Club Elects

Dames Club will hold its last meeting of the year tonight at 8 p. m. in Sutton Hall lounge and new officers will be installed at a candlelight ceremony.

The club's present faculty advisor, Mrs. Virginia Dressler, will be joined by newly elected Mrs. Norman Stone. Mrs. Stone is replacing retiring advisor, Mrs. Robert Smith who has been with the student wives for the past two years.

Shirley Johnson was elected president of Dames club for the school year 1961-1962. She will succeed retiring president, Joanne Ator.

Other officers elected were: vice president, Sandra Colyar; secretary, Leah Crawford; treasurer, Virginia Carey; courtesy chaimen, Ann Madrid and Dena Roberts; hostess chairman, Bev Cortner; publicity chairman, Jane Yandt.

Retiring officers include: vice president, Pat Hardman; secretary, Sandra Benson; treasurer, Ann MacNeil; courtesy chairman, Shirley Johnson; hostess chairman, Mary Solis; publicity chairman, Diane Smith.

PROFS BUS ON MOM'S DAY

Ever feel you'd like to say, "Hey, boys!" to some of your Profs? Mother's Day dinner at Louise Anderson next Sunday may be your chance.

As she customarily does for very special dinners, Miss Johnson has obtained the services of some townspeople, including faculty members, so that no students will have to work that day.

Mother's Day on campus will see a group from the Federated Church on hand—so, if some of those bus boys look strangely familiar, don't worry that they have to work their way through college, too. All those dollars will go to their church treasury; so just sit back and enjoy the arrangement while you can!

Senior Sponsors "Double M"

A double M (movie and mixer) is being planned for Saturday night, May 20, by Senior hall girls. The movie, "All the Kings Men," will begin at 7 in the Bali Lounge and the dance will begin at 9 p. m.

Man of the Year

Ray Raschko, a 23-year-old senior from Walla Walla, has been named Man of the Year by the Associated Men Students.

The honor capped numerous awards bestowed upon Raschko for his scholastic achievements and campus activities over the past four years.

In his sophomore year, he was named outstanding pledge of Intercollegiate Knights. Last year he was president of the IK's and Blue Key. While Raschko was president, Eastern's IK's won the Outstanding Chapter Award in the Northwest.

This year Raschko was vice president of the Associated Students.

Graduating with honors this June, he plans to begin study for his master's degree at the University of Washington in the fall, probably with a teaching assistantship.

Rascho intends to do correctional social work as a career.

Bachelors Create Alumni Fund

Raschko intends to do correctional social work as a career. The chairmanship of club alumni, Don Rappe, is establishing a scholarship fund in memory of Dick Huston.

Dick Huston, a member of Bachelor club, was graduated from EWC in 1959 as a lieutenant in the army. Dick was killed recently when his jeep hit a 12-pound charge of dynamite north of Seoul, Korea.

Rappe, chairman of the fund, is contacting all Bachelor club alumni for contributions. With many letters still unanswered, contributions have already reached the \$200 mark.

Bachelor club plans to make this a continuous project. The scholarship will be given to a qualifying student and will be under the direction of a committee of the Bachelor club alumni.

Contributors to the Bachelor Alumni Scholarship fund are Alumni Scholarship fund are:

Wendell Exline, Cheney; Don D. Rappe, Spokane; Lee Schorzman, Odessa; Lewis Cain, Sacramento; Fred E. Elkins, Vallejo, Calif.; Armand Boatman, Kiona, Wash.;

John R. Saunders, Moses Lake; Thomas R. Harrington, Millwood; EWCE Business Alumni club, Thomas R. Harrington, president; Leo Chandler, Spokane; Douglas Todhunter, Spokane; Michael Gray, Oroville, Wash.; Anthony Dolphin, Spokane; Gene Schermer, Stevenson, Wash.; Graham E. Johnson, Morton, Wash.; Jean DeNio, Germany, and Frank "Ike" Cummings, Almira.

SUMMER GRADS

Students who plan to graduate at the end of summer quarter should file their applications before the end of spring quarter.

Mr. Quinley, registrar, told the Easterner that some students have already applied for graduation. But those who have not applied should do so immediately.

Applications are available in the registrar's office.

PSYCHOLOGY DEPARTMENT OFFERS NEW COURSE—After a 10 year absence, the course "Experimental Psychology" is being taught by Dr. M. E. Cupp with the aid of \$2000 of new research equipment. Shown above is Ray Garcea (left) being tested by Gary Ballo and Milo Kurlew (left), using this equipment.

STUDY FACILITIES SAID "POOR"

A report to the Presidents of Amherst college, Mount Holyoke college, Smith college and the University of Massachusetts, prepared under the auspices of the Committee for New College (with assistance of a grant from the Fund for the Advancement of Education) revealed some interesting reactions to study facilities.

Studying is the most important activity in which college students engage (ideally, at least) yet little attention has been given to evaluating the conditions under which they study. One dormitory on campus has provided space for a compulsory "Study Table," but the questions of how appropriate the space is, or even what appropriateness consists of, have not been studied adequately. The present report, however, tends to shed some light upon this "large room" approach to the students' study problems.

Size Important

"The most significant finding of all," said the report, "is that for most students, use and approval of study space vary inversely with size. During the four days of recorded study, only 12 per cent of all the studying done took place in the large library reading rooms which exist on each campus; while 56 per cent of it occurred in the two smallest places; the dormitory rooms and library carrels. In the opinionnaire, 80 per cent of the students declared these small study spaces preferable to large; 85 per cent believed that it was desirable to study alone; and only 15 per cent of the students thought it desirable to study where there were 100 students or more. Places of intermediate size were also used and likewise preferred inversely according to their size.

"The reason for this strong bias against large study places is not mass agoraphobia but simply that the distractions arising from other people prove to be the most serious frustrations to good studying, and these distractions increase in proportion to the number of people present.

"If large special study rooms are constructed in the dormitories then they carry the same handicaps which make students want to avoid the large library reading room."

Good Study

Ten characteristics of good study space for the typical student have been brought out as follows:

1. A small room where one may study alone or with possibly one or two other students.
2. A place being used exclusively for study—at least for the time being.
3. Freedom from distractions of movement and noise caused by other people.
4. Freedom from distractions of noise from physical sources, e. g., telephones, plumbing, clanking radiators, typewriters, etc.
5. Good lighting.
6. Temperature and ventilation under personal control.
7. Easy access to books and

other study materials.

8. Comfortable chairs, adequate desk space, and book shelves.

9. Some chance to relax, wear "easy" clothes, etc.; and for smokers, freedom to smoke.

10. Decor and furnishing which are plain but not ugly, definitely not plush or arty.

The items are roughly in order of importance as derived from the various data available to the writers.

Almost every mineral from asbestos to uranium can be found in the jungles and plains (llanos) of Venezuela.

The Funnies Ain't So Funny Any More

By Don Dressel

What's our world coming to? Where are the hot spots? What's in the news? These questions confront us each day as we open our morning newspaper. Certainly, we can look at the headlines and get the basic information but why bother? Turn to the back of the paper—that's the way to get the news fast—the funnies! Cuba seems to be a popular topic of conversation and a fairly common headline gainer. We can follow Cuba along with mean old Uncle Longshot (really good, deep down) and see the nasty Bolsheviks routed by Longshot, No-No, and the hero, Smiling Jack.

We now turn to page two to see how the Chinese (Nationalists and Communists) are enjoying their leisure time. Got the picture? Now turn back to the comic section. Boy, those nasty Reds had better watch their step because the D. L. (Dragon Lady to you intellectuals) is hitting the mainland, and if that doesn't shake 'em up, Major Terry Lee's following suit.

One can usually find a small article or feature by a traveling psychiatrist in the paper, but whose advice could hit home deeper than those lines

Speech Therapy Class On Wheels

By Wayne Spence

Miss Alice Moe's speech therapy class is now on wheels. For the past three weeks, the class has turned into a group of nomads, with cars instead of camels.

The reason for the rash of road time is the class' observation during the Spring quarter. The class convenes in the fall of the year with speech 480, which is speech re-education; during the winter quarter it is 481, which is speech therapy, and in the spring it is speech 482, which is clinical practice. The class meets five times a week at 1 o'clock

of everyday wisdom from Linus, Lucy, and Charlie Brown?

The comics offer much much more, of course. Sweet Old Mary Worth gives advice to the lovelorn (make way, Ann Landers), while Dr. R. Morgan gives free medical counsel. To follow the national scene more closely, take a look at Pogo. One can wander into a world of fantasy with Mr. Mum, and come right back to reality with Blondie.

Yes, the funnies ain't so funny any more, but even childish readers find themselves aware, to some extent, of current affairs.

in "Moe's Hideaway." During the course of one school year the students learn to work with all phases of speech disorders in children. In the fall they learn the screening of patients, and write up their disorders. They also have patients they work with for the full year. When spring arrives, they get to go on observations of speech clinics, hard-of-hearing clinics, the school for cerebral palsy, school for the blind, and school for the retarded children.

This is where travel comes into the picture. The first trip was to Richland and to the Tri-Cities area, where class members spent the whole day visiting the various schools of the special ed. department. The next trip was to Spokane to visit the Edna Davis school for the hard of hearing. Following this, they traveled to Spokane again to visit the cerebral palsy school. It is hoped that time will allow them to visit Eastern Washington State Hospital and the Shrine hospital in Spokane.

Traveling has paid off for the students, for many of them feel that an hour of such an observation can teach more than a week of class instruction.

The Easterner . . . as seen by staff

OFTEN UNDER FIRE, and usually firing back, Easterner staff members had artist Ivan Munk draw this image of themselves involved in spirited debate.

Easterner's Editorials

The cartoon designed for this week's Easterner pictures none other than the Easterner staff, holding off hordes of irate editorial readers who threaten armed attacks any minute.

Don't be alarmed, though. Many of the issues which have raised such a high degree of controversy this year, are now settled. The Easterner has assured all that musicians are "normal" people, and that the Literary Artpress comes out free of charge. This week sees the end of a series of Stevens-White articles (by way of the Easterner's "Sounding Board") regarding the merits of effigy-hanging as a means of effective protest on campus.

No real decision has been reached upon such issues as dormitory "study tables" or American "Anti-Communist legislation," but the mere fact that issues such as these have been brought up, that interest has been created in such issues, is felt to be valuable and worthy of space in the Easterner.

And remember these? The argument upon the use of communistic methods for bringing about anti-communist emotionalism, better known as the Philbrick controversy. And the numerous letters from individuals who used the Easterner as a means to criticize campus facilities, evaluate campus organizations and to seek improvement in such items as the Easterner, itself.

The "Sounding Board" feature in the Easterner, the staff feels, has, along with the various other editorials and editorial features carried in the

Easterner, justified itself this year. And, as an indication of this, we might point out the mere fact that more people are reading this page, which has long been accepted as the most "uninteresting" in the opinions of readers of newspapers, before any other page.

It might be well to bring out another observation, or a repetition of a previously made observation, to be exact. The opinions expressed by Easterner staff members, or the Easterner masthead doesn't carry a list of the reporters who contribute so much to the Easterner each week, so we would like to mention some of these now. They are:

Donald Dressel, Wayne Gardner, Charles LaBounty, Ken McDonald, Charles Plumb, Elaine Ray, Bob Stevens, Bob Wilson, Jean Featherstone, Dave Mann and Sharon Williams.

The photographer for the

Easterner is Dave Mann, an EWC freshman, and the newly organized Easterner "art department" consists of Ivan Munk, who has created the "Why Not" series of cartoon you have seen recently. Adviser to the Easterner is Pat McManus, and another who deserves recognition for his contributions to the Easterner is EWC's director of public relations, Hank Koslowsky, who is also responsible for the increase in Easterner's news to the Spokane papers, as well as to your home town news outlets.

Are there any national, community or campus issues that you think should be covered by the Easterner before this term is ended? Continue to address them to the "Sounding Board" by bringing them to the Easterner office in the SUB. We'll print them if they are printable, and especially if they're controversial!

The Art Corner

By Bob Stevens

Nan Wiley and Robert Hanrahan, EWCE art instructors, are making plans to attend the annual Northwest institute of sculpture which convenes this year on the University of Washington campus and the Seattle Art museum on May 19 through 21.

This year's theme is "Sculpture and Man" and speakers include Walter Gordon, dean of the University of Oregon's school of architecture and allied arts; Allan Collier, artist; Norman Johnston, associate professor of urban planning; Cervais Reed, gallery director, and George Tsutakawa, sculptor.

Demonstrations will be given by William Akin, chemist, and George Laisner, sculptor, from Washington State university at Pullman. Laisner will also serve as special painting instructor in connection with the EWC creative arts summer festival this coming summer.

Exhibitions Scheduled

Karl R. Morrison, associate professor of art of Eastern's art department, announced that his oil painting class in Wilbur, Washington, has scheduled two exhibitions of its work. One will be held at Wilbur in Thomson's Floral Shop May 13 to 26 between 2 and 5 p. m. The second showing of the paintings will take place in the city hall of Creston, Washington, on May 27 in connection with its annual Community Day.

The class has met for the past 12 weeks in the Wilbur high school as an adult education project under the sponsorship of Mr. William Nickerson, superintendent of Wilbur schools.

Art Bazaar

Morrison also announced that the traditional Art Bazaar will be held this spring quarter after a postponement of three quarters.

Dates are Thursday and Friday, May 25 and 26. Tables set up in the second floor rotunda gallery of Showalter hall will display crafts projects on sale, and will include copper enamel jewelry and ash trays, ceramics, paintings and some sculpture.

Morrison said, "Proceeds

EWC SITE FOR TRAINING SESSION

EWC was named as the site for the 1962 officer training session of Northwest chapter of Phi Delta Kappa, international education honorary fraternity.

Francis J. Schadegg, president of Delta Psi, the EWCE campus chapter, said the college was named at a meeting at the University of Idaho over the weekend. About 50 elected officers of all field and campus chapters in the area are expected to attend.

Summer Jobs

National company is seeking limited number of college men for its income-scholarship program. Men selected will receive an opportunity to earn \$100 to \$1000 scholarship in addition to summer earnings far above average, while gaining. Our company is the leader in its field and provides thorough training to assure success. Interviews will be held from 12 noon to 5 p. m. in the Tahiti room, Thursday, May 18.

Experimental Psych Found Fascinating

By Dave Mann

Have you ever wondered what would happen if you were called upon to manipulate a complex motor task after eating?

This, plus many other unusual and interesting experiments are being conducted in the new Experimental Psychology class under the direction of Dr. M. E. Cupp. The new class has received \$2000 worth of new research equipment and this is the first time it has been taught in the last 10 years.

Experimental Psychology was discontinued because EWCE did not have the equipment nor the lab to make the course truly experimental rather than theoretical.

Next year Dr. D. Batten from WSU will be on the experimental psychology staff here. Batten received his Ph. D from Washington State University.

The purpose of the experimental course is to acquaint the student with the theoretical problems connected with psychological experimentation, the practical aspects of actually designing and carrying out experiments in the various areas of psychology, and also to include some training in the preparation of formal report writing.

The scope of the course is designed to give students familiarity with the following types of research: 1). psychophysics; 2). learning; 3). measurement of general and specific aptitudes and attitudes; 4) measurement of personality factors.

In addition to the above, the

ROTC DRILL TEAM AT WENATCHEE

Eastern's 17 man ROTC drill team, a small proportion shown above, is seen performing under the night lights of the Apple bowl and marched in the Apple Blossom festival parade in Wenatchee. The Sponsors (co-ed members) and the ROTC band also participated in the festival.

student develops and conducts at least one piece of psychological research in the area of his particular interest. As an example of what is being done in this area, one student is investigating techniques of instrumental learning and extinction with the albino rat.

Another is exploring the rate of learning of Junior high school students on verbal material with various degrees of meaning. Still another is conducting research into the area

of transfer of training using mirror drawing as a task, and comparing children and adults.

The possibility is also being investigated by a student that the automatic responses could divulge more information about emotion than they presently do. The area under investigation is the psycho galvanic skin response, and it is being studied with the aid of a sensitive bridge, a direct current amplifier and recording device.

CENTRAL WASHINGTON'S WILDCATS TAKE GAMES—Eastern's Savages lost a double-header to Central by scores of 9-8 and 8-6. Eastern had defeated the wildcats the day before with a score of 4-2. —Norval Trosst Photo

THE OPTIMIST

By Walt Hartman

Eastern Washington College's track team gave its strongest performance of the season last Saturday and the Savage baseball team appears to be starting its season all over.

The Savages, helped out by the brilliant performances of Clyde Carpenter, Glenn Gunderson and Sherm Stapleton, placed second in a field of eight at the Martin Relays at Walla Walla, barely being edged by the University of Idaho.

Carpenter and Gunderson both set new Martin records, and Stapleton captured both sprints in afternoon action. Leroy Seth and Jerry Russell both tied for first in the high jump and pole vault respectively.

Gunderson with an official toss of 204'-6", thrust one out 211" just after the event had ended, which brought several murmurs from the coaching staff.

Carpenter, seeking revenge after an earlier defeat at the hands of Idaho's ace Hinneman, ran an exceptionally fast 2:08 half, and then easily strode in with a 20 yard victory.

The Savage baseball team after completing their season, finished just the way the season started; a three-way tie with Central and Whitworth. Eastern also finished with an even 10-10 won-lost record for the season. Their record for conference games was 4-4.

The Savage's netters, improving with every meet, started out strong against Central Washington winning the first match via Mickey Soss, but then dropped six close ones in a row. Central is undefeated in eight encounters this year.

Coach Red Reese is beginning to look very optimistic toward the chances of his track team after last week's performances.

After a dismal performance last week, Fred Ekholm appears to be getting his strong shot-putter right arm back into shape, and by next weekend could be out around the 50' mark. The best mark in conference competition so far this season was 48'-7 3/4", that being thrown by Ekholm.

All of the training and practice will be culminated next weekend at Ellensburg for the conference championships and the right to participate in the district the following week.

Eastern Takes Track Second

The Eastern Washington College track team put forth its best effort of the season last Saturday afternoon when it placed a close second in a field of eight at the Martin Relays. Idaho captured the meet with a total of 55 points compared with the Savage's 50 1/2. Whitworth followed close behind with 49 3/4 points with Whitman garnering 39 1/2. Other teams included St. Martins with 14 3/4, Seattle Pacific with 13 1/2 and Eastern Oregon College with 13. The Idaho frosh also ran in the meet, but points were not tallied for them.

It was a warm sunshine filled afternoon that saw seven records broken and another one tied in the 16 events.

Glenn Gunderson and Clyde Carpenter of the Savages were responsible for two of the records, Gunderson smashing the old javelin standard, and Carpenter doing the same in the mile. Gunderson's toss of 204'-6", his second best of the year, was 20 feet beyond his closest competitor. Carpenter, running his best race since the nationals last year, easily outdistanced his opponents and appears to be ready for Western's Don Trethway who inflicted Carpenter's only defeat in conference competition this year.

Sherm Stapleton sprinted

home to victory in both the 100 and 220 yard dashes, registering his best times of the year, and should give the Savages real strength in the sprints next weekend at Ellensburg for the conference meet.

Leroy Seth, keeping his high jump record unblemished, settled for a tie at 6'-0", well below last week's performance of 6'-4". Seth tied with Larry Ferguson of Idaho. Big "Lee" appears to be a shoo-in for the conference title.

Jerry Russell, just missing a 13'-0", cleared 12'-6" and tied Bob Grant of Whitman for the title.

Other record breakers were Phil Brown of Seattle Pacific in the two-mile, Fred Shaffer of Whitworth in the discus, and the Whitman mile relay team. Hinneman of Idaho, defeated Brown, but since he was a freshman, his points didn't count.

Ron Huff, former Eastern student broke one record and tied another in the 220 and 100 yard dashes respectively. Huff's points did not count, being another Idaho frosh.

Athletic Awards Given May 23

Presentation of winter and spring athletic awards will be made at the Spring Sports Banquet May 23.

The annual banquet, sponsored by the W Club, will be held in the Cheney City Hall at 6:30 p. m.

Soss Wins Net Victory

Mike Soss was the only Eastern player to gain a victory, as the Savage tennis team was upended by Central Washington's powerful and unbeaten team last Friday afternoon.

Soss defeated the number one Central netter in the form of Dick Marshall by a 6-3, 3-6 6-3 score in the first match of the afternoon.

Dave McElroy of the Wildcats had to go three sets before disposing of Larry Little of Eastern. Little had won the first set 6-3, but then dropped the last two 6-1 and 6-2.

Roger Kromer was within two games of victory in his match with Scott McCabe of Central, but McCabe rallied to capture the last two sets 7-5 and 6-1.

The closest match of the afternoon came in the doubles where Kromer and Stan Peterson, after capturing the first set 6-3, dropped the last two by the close scores of 7-5 and 6-3.

SINGLES—Mickey Soss (E) d. Dick Marshall, 6-3, 3-6, 6-3; Dave McElroy (S) d. Larry Little, 3-6, 6-1, 6-2; Russ Glover (C) d. Roger Cromer, 3-6, 7-5, 6-1; Scott McCabe (C) d. Leonard Hunt, 6-1, 6-2; Jeff Mills (C) d. John Grosshans, 6-3, 6-1.

DOUBLES—McElroy and Glover d. Soss and Little, 7-5, 6-2; Marshall and Mills d. Cromer and Stan Peterson, 3-6, 7-5, 6-3.

Baseball Eastern, Central Whitworth Tie

The Eastern portion of the Evergreen Conference baseball league ended up in a deadlock last Saturday as Whitworth and Central Washington split a doubleheader to give all three teams in the Eastern half of the state identical 4-4 won-lost records.

Eastern, Whitworth and

Mayo Clinic Accepts Trainer

For some students, two years at the Mayo Clinic would mean a rather extensive medical examination. But for Duane Traner, it means two years of further education.

Traner, a graduating senior at EWCE with a major in physical education, has been one of 45 persons from the United States selected to attend the Mayo Clinic School of Physical Therapy.

Traner will further his study in athletic training. Upon graduating he will make his bid for the major or minor baseball leagues. But not as a player.

He hopes to be a professional baseball team's trainer. As a trainer for a baseball club, he will keep the players in good condition physically and

Central were scheduled to play a tie-breaking series yesterday afternoon at Gonzaga's Mulligan field. At the flip of a coin, one team would get a bye, with the other two teams playing off, and the winner of game number one would play the team receiving the benefit of the bye.

The winner of the East side playoff is scheduled to meet the West side winner for the right to travel to the National tournament. The playoff is scheduled for May 19-20. The site is yet to be determined.

will also treat their injuries.

Traner explained that his first year at the Mayo Clinic School will be spent studying and his second year will be internship. He received his acceptance at the clinic only two weeks ago.

"I'm really looking forward to this. I realize that being accepted by the Mayo Clinic is an opportunity not afforded everybody," he said.

With mid-term here, mid-quarter delinquency reports have been issued to faculty advisers. Students are urged to check with their advisers for "progress reports" and for planning and counseling.

why the
blue
suit
with the
gold
bars?

You're needed... just as your father and grandfather were. It's an obligation that a lot of qualified college men have to meet... that of serving your country, when and where you are needed.

And the Air Force needs college-trained men as officers. This is caused by the rapidly expanding technology that goes with hypersonic air and space flight. Your four years of college have equipped you to handle complex jobs. You have the potential to profit from advanced training... then put it to work.

There are several ways to become an officer.

First there is Air Force ROTC. Another program, relatively new, is Officer Training School. Here the Air Force commissions certain college graduates, both men and women, after three months' training. The navigator training program enables you to win a flying rating and a commission. And, of course, there's the Air Force Academy.

An Air Force officer's starting salary averages out to about what you could expect as a civilian. First there's your base pay. Then add on such things as tax-free rations and quarters allowances, free medical and dental care, retirement provision, perhaps flight pay, and 30 days' vacation per year. It comes to an attractive figure. One thing more. As an officer, you will become eligible for the Air Force Institute of Technology. While on active duty many officers will win graduate degrees at Air Force expense.

Why not contact your local Air Force Recruiter. Or write to Officer Career Information, Dept. SC15, Box 7608, Washington 4, D.C., if you want further information about the navigator training or Officer Training School programs.

NEW SPURS AWAKE EARLY—It was 6:10 a. m. when Esther Ofomaru (center) was tapped as a member of Spurs, a sophomore women's service honorary, by Marel Marson (left) and Sue Rehfeld, outgoing members. The Honorary tapped 21 coeds on May 4 to become members.

Apple Blossom Festival Finds Students "Swingin' "

Swoosh! Like a giant balloon, the town of Wenatchee billowed completely out of proportion almost overnight. The usually peaceful home of less than 17,000 people was turned into a weekend festival area for more than 100,000 fun loving men, women, and children.

The Wenatchee Apple Blossom Festival made a spectacular three day stand on May 5, 6, and 7, and then just as swiftly disappeared for another year.

Among the high lights of this year's Festival was a "speed run" from Spokane to Wenatchee in a 1915 Roadster. Piloting this speedy vehicle was Dan Eagle of Spokane. He made the trip in 6½ hours, including a 20 minute lay-over in Davenport for minor repairs.

A number of dances, two car shows, an art exhibit, a horse show, and a good sized carnival were sidelights of the Festival.

Perhaps the best received and the most prominent group of entertainers at the festival was Eastern's ROTC department. Performing along with groups from all over the Northwest (including British Columbia), the band, men's chorus, men's drill team, the Sponsor Corps and the new dixieland combo were the sharpest and best prepared groups at Wenatchee. In the pre-parade activities at the Orchard Bowl on Saturday morning, the announcer described the ROTC's performance as "most stimulating."

Evidence of Easterns representation at Wenatchee was the fact that 1/3 of the entire entries in the "Grand Finale" performance consisted of EWC students. The men's chorus and dixieland combo provided music and the ROTC drill team and the sponsor corps gave an excellent exhibition of precision marching. The drill team was the high light of the evening entertainment, drawing a rousing round of applause after each and every completed movement of their drill.

A humorous and interesting part of the evening show was an unrehearsed tug of war between Eastern's ROTC and a Wenatchee men's club.

Representing Spokane were the Shadle Park high school band and Hi-Lassies, and the Sweepstakes-winning Spokane Lilac Festival float with Queen Sarah Ann Jullian aboard.

It was quite a weekend — one in which EWC garnered a lot of respect and left the city of Wenatchee with a fine impression of the school.

Choral-Orchestra Concert Reviewed

By Charles LaBounty

EWC's Choral-Orchestra concert, presented last Thursday evening by the school's music department, was viewed by an interested, if not too enthusiastic audience. Three choral groups, as well as the EWC Orchestra, were featured on the program.

The orchestra, directed by Mr. Marvin Mutchnik, opened the concert with the Grand March from Aida. In the march, as well as the other orchestral numbers, the increasing good quality of the orchestra, both as individual musicians and as a group, was nicely shown. Though occasionally suffering from problems in precision and intonation, the total effect of the orchestra was quite pleasing.

Eastern's choral department was represented by three organizations: the Collegians, the symphonic choir, and the full concert choir. Of the three, the Collegians were, perhaps, the best received by the audience.

Corsages Featured

It won't be necessary for you to worry about a corsage for your date for the Military Ball, May 26. The French club can take care of it for you.

Members of the French club will be taking orders and money for beautiful, and guaranteed Hawaiian, orchids May 18 and 19.

Orchids which sell at florists' shops for \$6.95 can be ordered from the French club for only \$4.95.

There is a large selection of variety and color in a very moderate price range. All orders for orchids must be made by May 19 since delivery from Hawaii takes about five days. Orders will be taken at the Information Center in the Student Union building.

Delivery of orchids will be made May 26, and orchids can be picked up at the Information Center May 26.

Etter To Young Demos Meeting

A special meeting sponsored by the Young Democrats of EWC will feature guest speaker Max Etter.

A prominent Spokane lawyer, Etter will speak on the "Dangers of Right Wing Organizations." He has written much in the Spokesman Review concerning the John Burch society and is well informed on the subject.

The meeting will be held at 7 p. m., Wednesday, May 17, in the Capri room of the Student Union. All people interested are invited.

ience. This relatively small group has the combined qualities of good voices, pleasing arrangements, and an excellent director. Mr. Ralph Manzo led the Collegians in four light numbers that gave ample demonstration of the high ability this group has reached in its first year of performance.

The symphonic choir, which represented EWC in a tour of the Puget Sound area earlier this quarter, sang several numbers from the touring repertoire. The most notable of these was the Tom Scott composition, Go Down Death, a Negro Spiritual. Once again, the total effect was excellent, and served well to enhance the fine reputation this choir is gaining throughout the state.

The finale, Schubert's Mass in G, brought together the full choir and orchestra's string ensemble under the direction of Mr. Manzo. The Mass was one of the finest musical works ever presented on this campus and the Choir-Orchestra combination gave it an emotional expression that was felt by both the performers and the audience.

Pre-Grad Awards Four Students

Grants in pregraduate assistantships to four EWC students were announced today by Dr. George J. Kabat, EWC dean of instruction.

Two of the awards went to seniors Roger J. Anderson, Spokane, in foreign language, and to Robert C. Johnson, Cheney, in mathematics. Juniors granted awards were John H. Vogt, Elmwood, Neb., in physics, and Ray C. Shiflett, Curlew, Wash., in physics and mathematics.

The awards are part of a three-year project, supported by a grant from the Ford Foundation and administered by the University of Washing-

ton in cooperation with EWC, designed to encourage superior undergraduate college students to undertake studies leading to careers in college and university teaching.

Each student receiving an award will complete his undergraduate studies at EWC. Under the program, juniors will receive \$350 a year; seniors \$600. Upon graduation, these students may receive \$1000 for their first year of graduate study at the University of Washington if they meet certain additional requirements.

Both Anderson and Johnson received junior awards last year.

"Students Arise"

By Edd Stollery

The old call "Students Arise" originated with a class of sleepyheads who didn't know what was going on.

The new call of "Students Arise" has a different background. Today, it means, simply, Get Up and Find Out.

You correctly ask, "Find Out what?" The answer is just as simple, just as short: "Find Out About America."

Find out WHY our federal government is sending our money overseas, in some cases to countries with Communistic leanings . . . through this action, in effect, we support Communism itself.

Find out just WHY Kennedy wants to send more money to more countries with even closer ties . . . performing almost direct support of Communism — and in effect, perhaps, providing our ideological enemies with monies to fight us.

Find out WHY Communism itself is bad . . . so bad that in a small country bordering the Indian Oceans, the people who voted it in, voted it out again in the next election.

Yes, fellow students, the call "Students Arise" doesn't mean get out of bed . . . or wake up in class . . . it means WAKE UP TO WHAT IS GOING ON.

You owe it to your grandchildren to do all you can, to avoid the possibilities of truth inherent in Krushchev's statement, "Your grandchildren will live under Communism." He wasn't speaking about the USSR's rockets and satellites

DIRTY CAR?

Al's Chevron Service will be the scene for a car wash Friday, May 19, put on by Senior hall girls. If you haven't seen the shiny paint or the white of your car's whitewalls for a long time, here is a real chance to get the winter grime and dirt cleaned off at low cost—99 cents for a "deep clean" wash, and \$1.11 for wash, whitewalls and interior cleaning. The girls will be running around with buckets and water between 10 a. m. and 6 p. m.

English Picnic

Co-operation was the prime requisite for a project that men of the English department concocted recently.

Forming a volunteer work party, they converged on the new home of Miss Jean Taylor, Associate Professor of English and Language, and did quite a bit of landscaping last Thursday evening.

When they finished, they were served a barbecue dinner at the home of Dr. Richard F. Miller, department head.

— he was speaking of a government of the United States, directed by men like Marx, Lenin, Stalin, Mr. K. himself.

He was speaking about a system that forgets religion, or the personal right of man, or the personal beliefs of man's freedoms.

Your grandchildren would never forgive you if you didn't do all you could. If they were able to remain alive.

Walla Walla Campus Rumors

Walla Walla, (I. P.) President Louis B. Perry of Whitman College recently spoke on some prevailing campus rumors.

Question: Curriculum changes . . . a faculty committee is looking into the idea of letting sophomores launch directly into upper division classes if they have decided on their major, thereby giving them the advantage of completing their major division requirements by the end of their junior year.

Question: What is the process of transferring Whitman grades to other schools? Whitman is asking other schools what they are doing on transferring Whitman grades. An interpretation is sent with each transcript explaining exactly how the Whitman grading system works. Grades in the low 70's can be interpreted as a D, and are by many schools. Dr. Perry said that perhaps the faculty will have to begin using the grade D. He went on to say that generally Whitman has no trouble transferring grades to the Eastern schools.

Conservation of . . . Water?

By Wayne Spence

Water, water everywhere and someday there will be none to drink. This was just about the context of the talk given by visiting scientist Dr. A. B. Allen from Portland, Ore. Dr. Allen talked to members of Mr. Shadegg's Resources and Conservation class, and the talk was above all, thought provoking.

Dr. Allen said that water is our most abundant and important constituent to maintain life, but at the rate we are progressing, our water budget will nearly double in 25 years. A person can see how this will affect the areas of our country that are extremely hard pressed for water today. Some cities, such as Los Angeles, are no planning for this day. L. A. is now making plans to transport water by pipeline from our own Columbia River.

The first question that comes to mind is "where the heck is all the water going?" To answer this, we need only to look around and see all the new time-saving devices that demand more and more water as more people acquire them; devices such as garbage disposals, air conditioners, and other conveniences in this modern age. Industries will need more

water and irrigation demands for water will almost double in order to feed our rapidly growing population. More water will be needed for the increased power and transportation demands.

Dr. Allen told the class some of the steps that could be taken to lessen the problem. Some of these were new dams, flood controls, new forests, watersheds, more efficient underground irrigation, re-use of industrial water, and reclamation of ocean water. These are but some of the steps which man can follow, and now is the time for him to start to help himself.

As the student left the class and passed the water fountain on the third floor, they realized that the old, low water pressure 1775 model, took on a new appearance. Water will be savored a mite more around here at least for a few days.

An advertisement for L&M cigarettes. On the left, a black and white photograph of a young man and woman looking at each other. The man is holding a cigarette. In the center, large text reads 'L&M UNLOCKS CAMPUS OPINION'. On the right, there is a pack of L&M cigarettes and a box of L&M cigarettes. The pack is labeled 'THE MIRACLE TIP' and 'L&M FILTERS'. The box is also labeled 'L&M FILTERS'. Below the pack and box, it says 'Pack or Box'.

Light up an L&M, and answer these questions. Then compare your answers with those of 1,383 other college students (at bottom of page).

Question #1: Do you favor coeds wearing Bermuda shorts to class?
Answer: Yes _____ No _____

Question #2: (MEN) How much money do you spend on a Saturday night date, on the average?
(WOMEN) How much money do you estimate your date spends on your Saturday night date, on the average?
Answer: Less than \$3 _____ \$3-\$9 _____ \$10-\$14 _____
\$15-\$20 _____ Over \$20 _____

Question #3: Do you favor an elective speed-up system to allow qualifying for a BS or a BA in three years?
Answer: Favor speed-up system _____ Don't favor speed-up system _____

Question #4: Check the occasions when you're most likely to smoke more than usual:
Answer: In class _____ On a date _____ At sports events _____
Under stress and strain _____ Listening to music _____
Watching TV _____ On week ends at home _____
At bull sessions _____ While studying _____
After studying _____

\$15 Offered For Homecoming Theme

The Homecoming theme contest will run from Wednesday, May 17, until Wednesday, May 24, it was decided at the first Homecoming chairman meeting.

A suggestion box will be placed near the main entrance of the student union where all ideas may be placed (after having been put down on paper). A \$15 prize will be presented for the best theme for homecoming next year. It should be no more than six words in length and preferably fewer. The \$15 should provide added incentive for some real "creativity."

Wednesday's 5 o'clock dinner meeting was the first for the Homecoming committee and those present were Mr. Don Williams, EWC Director of Student Activities, Mr. John Fertakis, Faculty Advisor; Paul Barton, Homecoming general chairman; Enid Norby, general secretary; Susan Keller, AWS Alumni Coffee Hour chairman; Jan Neuenschwander, promotion and publicity chairman; Jo Christensen, Homecoming dance chairman, and Carol Shuey, Homecoming show chairman representing Alpha Psi Omega Drama Honorary.

IA EXHIBITS IN SHOWALTER

Industrial Arts department is now presenting a student project display on the third floor of Showalter hall to show the various kinds of work done by the EWCE Industrial Arts students.

The projects on display have been alternated each week, during the last three weeks, in order to exhibit as many as possible.

Students having projects on display include David Mitchell, Denny Berard, Wayne Gardner, Guy Looney, Alvin Miller, George Bybee, Charles Hall, Bernard Mayfield, Harold Richards and Eugene Reiswig.

Earth's closest neighbor, the planet Venus, perpetually veils its face beneath a sea of clouds.

7 p. m.—Rally Committee, Cove; Orientation Guides, Bali

On the Campus

Luau Date Draws Nearer

EWC's all-campus Luau is getting closer and closer. As a matter of fact, it will be here May 30, with about three hours of some of the best entertainment available.

There will be groups from Eastern's music department, the EWC Hawaiian Quartet, a group of Hawaiian singers from Central Washington college and an entertaining group from the University of Washington.

Other entertainers will be the "Sublimely Ridiculous" Bobby Wick and Ray Brand TV stars, who recently appeared on the Steve Allen show and were well received at Whitman college and WSU. Their act will become a part of the "hungry i" billing in San Francisco soon. These two entertainers mix comedy with jazz, and rely on topical situations to draw the large crowds that always attend their performances.

Another entertainer who will help wow the Luau is Miss Jilla Webb, the featured vocalist with the Sy Zentner band in its recent appearance at Eastern's President's Ball. She has sung for years with the Harry James and the Tommy Dorsey bands.

Everyone is welcome to attend the Luau. Campus students will receive free tickets with their meal tickets, which will be punched at that time. And 100 tickets are available to all off-campus students, parents, friends and faculty, the tickets going on sale next week. Hurry! Advanced ticket sales will determine the amount of Luau food which will be prepared.

"If it be well weighed, to say a man lieth, is as much to say as that he is brave towards god and a coward towards men." Montaigne

Improved Program

Tucson, Ariz.—(I. P.) Calling for "an improved approach," Dr. Hollis A. Moore, Jr., dean of the University of Arizona's College of Education, recently proposed sweeping changes in Arizona's teacher certification laws. He declared the present teacher certification law imposes "handcuffs" on the colleges of education wishing to experiment and to revise curricula in order to keep up with the times. He commented on the 17 different kinds of teacher certificates in Arizona.

Dr. Moore recommended the establishment of a state-wide board of appraisal for teacher education, to keep under surveillance the state's three colleges of education.

He proposed that minimum standards might be set up by the board of appraisal, but maintained the board should be "completely silent" as to specific courses and content. Thus each university or college would be free to determine its individual program.

IMPALA CONVERTIBLE

Here's top-down going at its breezy best. And, like all five Chevy Impalas, it's available with Super Sport features* that set it apart from anything else on the road.

*Optional at extra cost, as a complete kit.

Sports car spice never came in so many varieties...Chevrolet!

Maybe you're a fellow with more or less normal driving habits who's looking for a change of pace. Or maybe you're a red-hot sports car buff. Either way, you'll find the fastest relief for that tantalizing itch in your driving foot at your Chevrolet dealer's One-Stop Shopping Center. He's got cars that run the sporting gamut like no others—nimble Corvair Monzas (2- or 4-door), charged-up Impala Super Sports (in five different body styles) and the kingpin of production sports cars, the Corvette. You can take your choice without chasing all over town. They're all stablemates under the same roof!

CHEVY CORVAIR MONZA CLUB COUPE

Nestle behind the wheel in one of those bucket front seats and see what Corvair's rear-engine design has done for driving. Steering that responds to the subtlest hint. Braking that brings you to precise even-keel stops. Traction that clings like a cocklebur.

CORVETTE

It's the goingest machine in America. Pure-bred sports car performance—the likes of which only the most elite (and expensive) foreign-built jobs could claim before Corvette began stealing their thunder in open competition.

See the new Chevrolets at your local authorized Chevrolet dealer's

Mothers To Be Honored May 21

May 21 has been scheduled as the annual EWC Mother's Day. The theme, "A Song in My Heart," will be carried throughout the fun packed day.

This year it has been decided to have two luncheons in order to combat the seating problem in the cafeteria. Reservations may now be secured in the LA dining hall and should be taken care of as quickly as possible.

The activities will begin at 9 Sunday with registration at the Student Union. Here the mothers will receive corsages, pictures will be taken, and the fun will begin.

The program schedule will

be the following:
9-11—Registration (Student Union)
11-12 — Pre-luncheon refreshments (LA)
12-12:45 — First luncheon seating (LA Cafeteria)
12:45-1:45 — Pre-luncheon refreshments (LA)
1:45-2:30 — Second Luncheon Seating (LA Cafeteria)
2:30-3 — Program (Showalter Hall Auditorium)
3-4 — Symphonic Band "Pops" Concert.
4-5 — Individual Dormitory Teas.

A special invitation is extended to the off campus students, married students and commuters.

"The good things which belong to prosperity are to be wished; but the good things that belong to adversity are to be admired." Seneca

AWS MOTHER'S DAY, to be held all day Saturday, May 21, has had Donna Canford, LA hall, shown above, as one of the co-chairmen workin on the coeds' project.

Just Imagine Being Stranded On An Island... and No "POWER" to get Cooking!
